Executive Biography

Jane has more than twenty years experience in the telecommunications industry. As an engineer for Ameritech in the trunk engineering switched access department, Jane published opinion papers directed to the Federal Communications Commission and wrote methods and procedures for handling new services. Additionally, Jane coordinated the enhanced 911 circuit quantities for the City of Detroit. Jane's experiences as an engineer, a consultant and a manager give her a unique blend of skills, which ultimately make her an effective leader in the technology field.

As President of AMI Strategies, Jane is responsible for assembling a dynamic and experienced team to design, build and manage her clients' technology infrastructure, while finding ways to lower their cost of communications. Jane has created a vision for AMI that includes 100% client satisfaction, profitable growth, respect for the individual, and employee empowerment. Additional responsibilities include: developing strategies for the creation of tools and processes that allow her to monitor AMI financial processes, client communications and satisfaction, project performance and forecasts, sales and marketing and employee satisfaction. She also created an AMI volunteer organization, All Hands Matter, to foster communityrelationshipsandgoodwill.

Under Jane's leadership, AMI was recognized among the 2003 Deloitte Fast 500 public and private technology companies, 2002 and 2003 Inc 500 fastest growing private companies, and 2003 Crain's Best Places to Work.

Jane has a Bachelors of Science in Applied Engineering from Michigan State University and a MBA from Wayne State University. She successfully completed the marketing program of Thomas Learning Center and is a Dale Carnegie graduate for both the Human Relations and Sales Courses.

Jane speaks to graduate students regularly for the Wayne State University entrepreneurial program and she serves on three boards, Michigan Council of Women in Technology, Greenpath, Inc. and the Board of Visitors for Wayne State University.
